

LESSON 28: "LIFE AFTER THE VEGAN RESET -
RESOURCES"

Now that the 28-Day Vegan Reset is officially over, you may wonder what to do next. Luckily, there will be plenty of new Vegan Resets with all new recipes soon:) But in the meantime, I would recommend incorporating as much of what you have learned during this journey into your day to day life as you can and as you are ready for. If you were not vegan before this reset, you could decide to extend this journey and continue eating a plant-based diet for the next weeks or even months. Just be aware that too much pressure often has a counter-productive effect. It is OK to just take it day by day. You don't need to prove anything to anyone. This is a journey people go on after they've gathered enough information to convince them that doing so will have a positive impact on the lives of animals, the environment and their health. It is not a health craze or a temporary diet. Transitioning to veganism means changing habits that you were accustomed to for most of your life, it is normal that this process takes a little longer for some than it does for others. At the same time, veganism is also much easier than many people believe. We live in a world that has conditioned us to believe that meat and other animal by-products are essential for our wellbeing and survival, so it is understandable that the idea of removing them from our lives entirely may seem radical or even extreme, but the good news is that there is such an abundance of plant-based food and alternatives to choose from that it won't feel like you're depriving yourself. If you don't feel quite ready yet, that is OK too. Simply keep informing yourself and take it one step at a time!

Some of you have asked me for a list of resources to make finding vegan products, books and documentaries easier, so here you go:

(keep in mind that lists like these frequently change as new brands see the light of day and old ones change their policies, so always double check before purchasing a product):
